Special Rules

Armoured Train - p.44

Armoured Trains may not be deployed in Ambush.

Armoured trains were critical to Poland's survival in the 1920's and are still an important part of the army. Armoured Trains, Assault Platoons, and Armoured Railcar Platoons are rated as Fearless Trained.

Light Howitzer Battery - p.37

Light Howitzer Batteries may not be deployed in Ambush.

Piechoty Company - p.33

Piechoty and Machine-gun Platoons from a Piechoty Company operate as separate platoons, each with their own command team. Although its platoons operate separately for all other purposes, a Piechoty Company deploys all at the same time as a single platoon. For example, this means that you treat the entire Piechoty Company as a single platoon when calculating the number of platoons held in Ambush or Reserve.

Reconnaissance Tank Platoon - p.29

An armoured battalion was attached to each cavalry brigade at the start of the war. Reconnaissance Tank Platoons are rated as Fearless Trained.
